

# Assignment L1

## (Teammate Interview 2026)

You have just been placed in your **GE 211** semester team with students you know little or nothing about. Because you are going to be working together with these students all semester, it is important that you know something about your new teammates. This assignment is meant to be an “ice-breaking” exercise to help your team get off to a good start.

### The Assignment's Learning Objectives

The learning objectives for this assignment are to:

1. **help** you to become more familiar with your new teammates,
2. **introduce** you to how to present technical work, and
3. **introduce** you to the assessment process used throughout this course.

In general; this assignment is intended to help you be successful in preparing your work for the many assignments this semester that will be recorded.

### The Assignment

As a team, decide who will interview whom. Every member of the team must (1) conduct an interview and (2) be interviewed by another member of the team.

Interview your team member and write up a (word-processed) short biography, which will be included in your Team's Design Notebook. As a minimum you should include:

- |                                       |                                                                         |
|---------------------------------------|-------------------------------------------------------------------------|
| 1. The person's name,                 | 6. Reasons for choosing engineering, major and reasons for choosing it, |
| 2. Place of birth,                    | 7. Hobbies,                                                             |
| 3. The number of years at <i>QU</i> , | 8. Personal goals are for <b>GE211</b> , and                            |
| 4. Where he lives,                    | 9. A unique trait that he can bring to the team.                        |
| 5. Whether or not he works,           |                                                                         |

You may include any other items that you or your team might find interesting as well.

### The work structure

The assignment must be self-assessed and reassessed by one of your team peers (who has no relation to your assignment) prior to the date of submitting this assignment. The structure of member (1) to interview member (2), member (2) to interview member (3) and so on is one of the proposed structure.

### The Submission

1. The interview (biography) must be (self-assessed) prior to class. When you bring your interview to class for submission it is expected that you will have a package of materials, stapled in the upper left corner, in the following order:
  - the interview checklist (completely filled in),
  - the PTW (completely filled in), and
  - The original assignment (3 pages maximum)
2. A copy of the original assignment without any checklist is to be uploaded to the associated Blackboard link prior to the due session of the assignment in MS-word format.

### The Assessment

1. Your interview-work is expected to be: completed, self-assessed using the following two checklists:  
*Presentation of Technical Work Checklist*  
*Teammate Interview Checklist*
2. Another member(s) will be assigned by the instructor to make extra assessment before the instructor proceeded in his assessment.

1. Work Evaluated by \_\_\_\_\_ Assessment Symbol/Color \_\_\_\_\_ Date \_\_\_\_\_
2. Work Evaluated by \_\_\_\_\_ Assessment Symbol/Color \_\_\_\_\_ Date \_\_\_\_\_
3. Work Evaluated by \_\_\_\_\_ Assessment Symbol/Color \_\_\_\_\_ Date \_\_\_\_\_
4. Work Evaluated by \_\_\_\_\_ Assessment Symbol/Color \_\_\_\_\_ Date \_\_\_\_\_

This checklist must be completed by the assignment owner prior to the due date. **No correction for this assignment**, i.e. the grade issued on this checklist may remain as the final assignment's grade

| Yes | No | Self-Regulation Issues: (half lapse will be issued (to each member) for each NO)                                                                 |
|-----|----|--------------------------------------------------------------------------------------------------------------------------------------------------|
|     |    | A. The assignment was uploaded to the Blackboard in MS-word-format prior to the due date (if this item is marked NO; the final grade will be NS) |
|     |    | B. The assignment is in three pages (not papers) or less ( <i>this does not include the appendices</i> )                                         |
|     |    | C. This checklist is completely filled out by the work owner and placed as the top page of this package                                          |
|     |    | D. The PTW is completely filled out                                                                                                              |
|     |    | E. The two checklists and the assignment are submitted in order and stapled from the left top corner                                             |
|     |    | F. There are no other Self-Regulation problems (if No state the point here .....)                                                                |
|     |    | G. Enter a 1 in the box to the left if there are any No's                                                                                        |

| Expected Features                                                                                               | Yes | No |
|-----------------------------------------------------------------------------------------------------------------|-----|----|
| 1. The assignment meets <b>all</b> the PTW requirements                                                         |     |    |
| 2. The body contains the name of the interviewee                                                                |     |    |
| 3. The body says where the interviewee was born                                                                 |     |    |
| 4. The body says how long the interviewee has been at Qassim university                                         |     |    |
| 5. The body tells what the interviewee's major is and why he selected that major                                |     |    |
| 6. The body tells what the hobbies of the interviewee are                                                       |     |    |
| 7. The body says whether the interviewee is working                                                             |     |    |
| 8. The body says where the interviewee is living                                                                |     |    |
| 9. The body says what the interviewee's personal goals are for GE211                                            |     |    |
| 10. The body says what unique thing (e.g., skill, knowledge, attitude, etc.) the interviewee brings to the team |     |    |
| Comments:                                                                                                       |     |    |

| Ok | Weak | Revealed Features                                         |
|----|------|-----------------------------------------------------------|
|    |      | Rate the level of effort shown                            |
|    |      | Rate the quality (e.g., how informative) of the interview |
|    |      | Rate the quality of the Context and Discussion            |

## Results of Assessment

2. Work Evaluated by \_\_\_\_\_ Assessment Symbol/Color \_\_\_\_\_ Date \_\_\_\_\_
3. Work Evaluated by \_\_\_\_\_ Assessment Symbol/Color \_\_\_\_\_ Date \_\_\_\_\_
4. Work Evaluated by \_\_\_\_\_ Assessment Symbol/Color \_\_\_\_\_ Date \_\_\_\_\_

This checklist is not to go as the work-checklist. It can be used, however, to assess any-body of technical work to make sure the work is being presented according to the expectations of the **GE 211** faculty. This Checklist is referred to in all the other Assessment Checklists that you will be using and, while you may not actually print and fill in this Checklist for all of your work, you will need to at least mentally complete this Checklist for **all** of your work.

| Yes             | No | Expected Features                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-----------------|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                 |    | This checklist is completely filled out and assessed before submission                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|                 |    | 1. There is material (i.e., a <b>Context</b> ) at the start of the work which marks the <b>beginning</b> of the new work and <b>orients</b> the reader (i.e., gives the reader some sense of what follows)? This material could: <ol style="list-style-type: none"> <li>a) <u>explain why</u> the work <u>will be/was</u> done (e.g., This is a homework assignment on equilibrium or This work on frame weight will be undertaken to get a better idea about how much this Home Exercise Machine might weigh; I prepared this memo on our power shortages after last Friday's power outage at Unit 67), <b>or</b></li> <li>b) <u>tells</u> the reader <u>what</u> will be accomplished when the work is done (e.g., After this assignment is completed I will have shown I know how to do force balances and will be prepared for the quiz or When this work is completed we will know the frame weight), <b>or</b></li> <li>c) <u>tells</u> the reader <u>how</u> this work fits into a bigger problem (e.g., This is the third assignment from Chapter 3 or Estimating the cost of the Home Exercise Machine requires knowing the weight of the machine's frame which is determined in the following work), <b>or</b></li> <li>d) <u>tells</u> the reader the important topics to follow and the order the topics are addressed (e.g., This report first discusses the methodology used, then presents the test results, and ends with a discussion of the testing)</li> </ol> |
|                 |    | 2. There are dates and names of the people who did the work on at least the first page of the work                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|                 |    | 3. There is a title, of the subject being addressed, shown in the first page of the work                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|                 |    | 4. The work <b>looks professional</b> (e.g., no cover sheet, the material is readable, text is justified, neat, plenty of white space, figures have descriptive titles, plots have acceptable annotation)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|                 |    | 5. Based on the Context, the work is what you expected to see                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|                 |    | 6. The work is <b>professional</b> and ethical; from subjective point of view                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|                 |    | 7. There is material (i.e., <b>Discussion</b> ) at the end of the work, which marks the <b>end</b> of the work and <b>discusses</b> or <b>reflects</b> on the work done. This end material could discuss: <ol style="list-style-type: none"> <li>a) <u>what was learned</u> (e.g., The frame weight was 34 kilograms which is much lighter than any machine we have found in the stores or This cone surface area of 250 m<sup>2</sup> is huge, about a third of a football field), <b>or</b></li> <li>b) <u>the process used</u> in working the problem (e.g., I could not work this problem until I realized I could replace 1 with <math>\sin^2\Theta + \cos^2\Theta</math> or Until we simplified the frame, we were not able to get our model to converge), <b>or</b></li> <li>c) the <u>correctness</u> of the result (e.g., The answer to this problem is 14.6 m<sup>2</sup>, which matches the answer in the back of the book or This weight of 34 kilos, while it seems light, is probably correct; the model was checked using example problem 4.5 in Shigley), <b>or</b></li> <li>d) <u>what will happen next</u> (e.g., Now we can calculate the cost of our device)</li> </ol>                                                                                                                                                                                                                                                                                       |
| Comments on NOs |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

## Results of Assessment

|                          |                                                                                                                                                                                                                                                                                                                                                                                   |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>M</b>                 | meets expectations: requires <b>all Yes's</b> for all items in the expected features (in general no "NO" with "M")                                                                                                                                                                                                                                                                |
| <b>NI</b>                | needs improvement: is given if there is one <b>No</b> in the expected features                                                                                                                                                                                                                                                                                                    |
| <b>NCE</b>               | no credible effort: is given if there is more than one NO                                                                                                                                                                                                                                                                                                                         |
| <b>missing checklist</b> | The PTW will be considered " <b>missing checklist</b> "; If it was not <b>completely</b> filled out by the student; in this case:- <ul style="list-style-type: none"> <li>• The PTW must be assessed by the peer/instructor.</li> <li>• Mark "<b>NO</b>" in front of the <b>PTW-question</b> in the assignment main in checklist.</li> <li>• No lapses is to be issued</li> </ul> |

## Quiz # 1 (sample) on Grading and Assessment

### Member # 1

Name: \_\_\_\_\_ Team #: \_\_\_\_\_ Member #: \_\_\_\_\_

This is a **Comprehension-Level** Quiz for *grading and assessment* (the white and yellow pages of the first-day material). This is a closed-note, closed-book, and closed-colleague quiz; please put your course notes, books, etc. **on the floor**, use a pen and staple the **appropriate quiz checklist**.

Select the **best answer** to each of the following **5** questions.

1. Which of the following is **NOT TRUE** for an *Engineering Journal*
    - a) "It is optional but strongly suggested."
    - b) "It helps you reflect on the concepts in each assigned reading."
    - c) "It can be resubmitted if it is assessed as NI."
    - d) "It must reveal your understanding and thinking."
    - e) "It usually helps you to get more **Ms** and fewer **NCEs**."
  
  2. Which of the following is **NOT TRUE** for the *GE211* course
    - a) "Its main goal is to introduce students to the *Engineering Method*."
    - b) "It is an introductory engineering course, required by all engineering students."
    - c) "It develops knowledge that is useful for latter courses."
    - d) "It focuses on the process of how to solve problems."
    - e) "It consists of two parts or sessions: Concepts and Modeling."
  
  3. Which of the following **is not** considered as Disruptive behavior in class?
    - a) Side conversations
    - b) sleeping
    - c) working on material for other courses
    - d) Team presentation
    - e) failure to appropriately respond to the "focus on facilitator" signal
    - f) none of the above
  
  4. If you got an B in Concepts, and a C in Laboratory your course grade would be
    - a) A
    - b) B
    - c) C
    - d) D
    - e) cannot tell
-
